

Enjoy a Private Cruise to Norway´s finest and most spectacular locations

During this cruise we visit some of the most famous locations of the Lysefjord, like the Pulpit Rock, Kjerag Boulder and Flørli – but also some lesser-known gems that will leave you breathless. We spend some time in the flat coastal communities among idyllic islands with history from the Viking era. Indulge in absolute comfort aboard our luxurious private yacht, paired with delicious food and stunning landscapes.

All cruises can be tailored to your needs

The following itinerary presentation is a standard cruise experience.

Welcome to Stavanger!

Transfer to the pier where your **Private Yacht** is waiting for you.

The first day will be spent in the spectacular Lysefjord, where you will see the famous **Pulpit Rock**, taste fresh water from the waterfalls, and experience several other stunning locations. We also take you to **Kjerag**, the crown of the Lysefjord, a 1000 meters vertical wall, famous for its base jumpers and "the boulder" (kjeragbolten).

Another one-of-a-kind location we stop by is **Flørli – the worlds longest wooden staircase**. Here you can enjoy a walk around the area, as well as testing your stamina up the stairs.

After lunch onboard, we cruise up to a beautiful lagoon at **Helleren** and drop the anchor for the night, or we stay at a private pier.

Optional activities for this day:

Tender boat excursion to the beautiful beach at Helleren. Helicopter tour from the fjord to see the Pulpit Rock, Kjerag and the Lysefjord from a bird's eye view.

Idyllic island communities

After we have indulged in spectacular views in the Lysefjord, we will continue the cruise into the coastal communities in Ryfylke among idyllic islands with history from the Viking era and before.

The name of the place we take you to is **Stjernarøy**, a small family hotel at **Ramsvig**, where you will taste local delicacies at a restaurant in an idyllic setting. Ramsvig is located on the beautiful "**Church Island/ Kyrkøy**". The location came to be a historical landmark, as a local family restored the old buildings and turned them into a nice little romantic and charming seaside hotel, combined with an intimate restaurant which serves excellent food.

From here we eventually take you back to Stavanger - or we go further if that's what you prefer.

Optional activities for this day:

Walk around Kyrkøy by foot or bicycle. Tender boat excursion between all the beautiful Islands around Stjernarøy.

What memories will you bring back home?
