It's an old trading place where fishermen met farmers in the old days. One of the old buildings has been restored by a local family, and they are now running a nice little romantic and charming seaside hotel.

We also take you to **Jøssingfjord**, a charming fjord that offers breathtaking natural beauty, and is rich in historical significance.

The place hidden from the rest of the world.....

If the weather allows, **the next destination is Røvær**, a unique fishing village where we will cruise through small islands with narrow gaps to find the protected community in perfect shelter of the winds and waves of the North Sea. The local restaurant/hotel is known for splendid seafood along with beautiful sunsets on the utter west coast of Norway. We also spend the night here, where you wake up to the sound of seagulls and calm waters.

Enjoy a coffee in the back of the yacht while you see local fishermen in action. You can explore the island on foot with a local guide. See the old houses, beaches, lagunes, historical Viking grounds – This little island has everything. Do you want to go fishing? We can organize this with a local fisherman.
